A Note From the Administrators

We would like to extend a thank you to all of our parents who attended Parent-Spend-A-Day last month. We hope that you all got a great idea of how hard the teachers and students work during the school day.

If you have a concern about your child, please contact the teacher and communicate that concern. Parent-Teacher Conference is set for Wednesday, November 1st from 1:00-4:00. Students do have a holiday on this day, since the beginning of the day is dedicated to teacher professional development and the afternoon is dedicated to parent-teacher conference. Please make every effort to stop by and speak to your child's teacher. Remember that open communication is the first step to success.

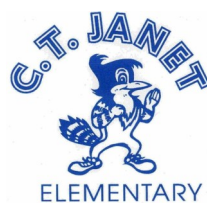

This is a reminder that all Pre K and K students wear a purple uniform shirt. On dress down days we would like for them to participate but **BUS RIDERS IN PRE K AND K MUST HAVE A PURPLE SHIRT ON TO RIDE THE BUS.**

Our annual fall fest will be held on Tuesday, October 31, 2017. Look for a flyer to come home in the weekly folder with more details.

The beginning of the school year has been busy but students and teachers are consistently working on and tweaking their recipe for success!

Vision Statement

Our vision is that C.T. Janet will be a school regarded for academic excellence.

Mission Statement

We are committed to providing quality instruction that will support consistent student achievement so that all students attain grade level or higher performance levels annually.

Growth Mindset

What is a growth mindset?

Growth mindset is a concept developed by Carol Dweck, a Professor of Psychology at Stanford University. It is the belief that a person's abilities and intelligence can be developed through practice, hard work, dedication, and motivation.

What is a fixed mindset?

A **fixed mindset** is the notion that intelligence and talent alone will lead to success. People with a fixed mindset believe that these things are "fixed" and cannot be developed or improved upon. They believe that you are either born with it or not, and nothing can change that.

Why is having a growth mindset important?

Research has shown that children who have a fixed mindset are more likely to:

- Fear failure
- Give up on tasks they feel are too difficult
- Ignore feedback
- Avoid challenges
- Feel threatened by the success of others

Children who have a growth mindset are more likely to:

- Learn from their mistakes
- Be motivated to succeed
- Put forth more effort
- Take challenges head on
- Take risks
- Seek feedback
- Learn more
- Learn faster
